German Technology  
Vaccum Compressed

# ABOUT US

---

Welcome to Hammer, where the timeless artistry of traditional craftsmanship meets the cutting-edge innovation of German technology. Our commitment to quality and innovation is evident in our flagship products, the Hammer HD Premium and the Hammer HD Titanium. Crafted with precision and care, these products boast a multitude of features that set them apart: high density for strength and durability, excellent screw holding capacity, and resistance to termites, flames, warping, and water damage. Furthermore, our products are toxin-free, ensuring safety for both consumers and the environment.

Performance is paramount in Hammer's design philosophy. Our products offer high impact strength and abrasion resistance, along with excellent insulation properties for energy efficiency and comfort. Their smooth surface allows for easy engraving and printing, making customization effortless. Additionally, they are stain-resistant, easy to clean, lightweight, and carpenter-friendly. With Hammer, experience craftsmanship, innovation, and German engineering at its finest, setting new standards of excellence in the multiwood industry.

## HAMMER HD PREMIUM

Thickness	5mm - 18mm
Std. Width	1220 mm
Std. Length	2440 mm
Density	0.6

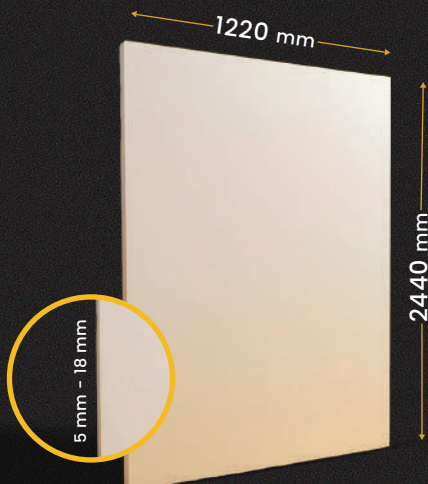

# OUR PRODUCTS

## HAMMER HD TITANIUM

Thickness	5mm - 18mm
Std. Width	1220 mm
Std. Length	2440 mm
Density	0.7

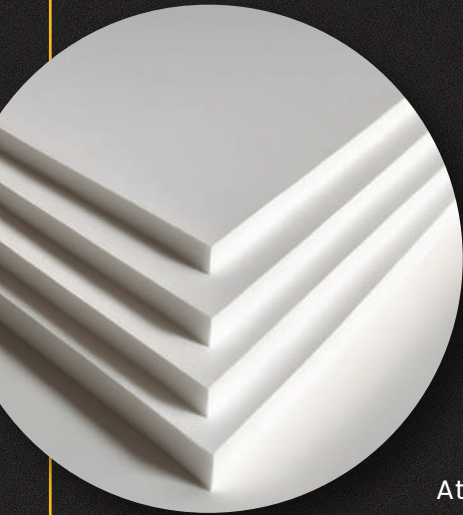

# WHY CHOOSE US ?

---

## HIGHEST QUALITY

---

At Hammer, we prioritize both user-friendliness and manufacturing efficiency in our board designs. Whether for residential interiors or robust cladding applications, our planks are effortlessly manageable, seamless to install, and guarantee impressive visual appeal.

## ECO-FRIENDLY

---

Hammer provides environmentally conscious and sustainable construction options, offering top-tier materials that don't require deforestation or harsh chemicals. Our panels boast exceptional durability and can be recycled repeatedly, setting us apart from traditional wood products. Through our manufacturing process, we prioritize quality while minimizing resource consumption.

# OUR DEFINING FEATURES

Introducing Multiwood, crafted with precision using cutting-edge German technology to redefine excellence in engineered wood products. Our multiwood is infused with the latest advancements, boasting a high calcium content that enhances durability and resilience. Engineered to perfection, each board is meticulously constructed to ensure a powerful structure with unmatched strength and high density. German technology in Multiwood production ensures meticulous quality control, resulting in boards that exceed industry standards. Whether for furniture, flooring, or architectural elements, our Multiwood stands as a testament to innovation and reliability, empowering your projects to withstand the test of time with unparalleled strength and sophistication.

High Density

Excellent Screw Holding Capacity

Termite Resistant

High PVC content

Nonflammable

Warping Resilient

Water Resistant

Carpenter Friendly

Toxin Free

High Impact Strength

Robust & Abrasion Resistant

Lightweight

Excellent Insulation

Perfect to Engrave & Print

Stain Resistant & Easy to Clean
